

## How to measure and order custom ground cables

Length is measured from center to center of the lugs. The lugs are the metal part that the stud or bolt passes through to attach the cable.

**Measure twice! Custom cables are non-returnable!**

### Cable Details

Length (in or mm, circle) \_\_\_\_\_

Lug 1 inside diameter (in or mm, circle) \_\_\_\_\_

Lug 2 inside diameter (in or mm, circle) \_\_\_\_\_

Model \_\_\_\_\_

Chassis \_\_\_\_\_

Engine \_\_\_\_\_

Signature & Date \_\_\_\_\_

**Placing an order constitutes your agreement that all custom ground cables are non-returnable!**
